

Emergency Connectivity Fund

WHAT YOU NEED TO KNOW

The Emergency Connectivity Fund (ECF) was established to help close the "Homework Gap". It aims to provide schools and libraries with funding for connected devices and equipment for off-campus users who lack the tools to engage in remote learning. When announced, the first filing window will be open for 45 days. Eligible purchases made 7/1/21-6/30/22 are qualified for funding. Additionally, existing E-Rate forms will be leveraged to reduce administrative burdens. However, *ECF is not E-Rate*. ECF reimburses 100% of eligible purchases and there are no E-Rate bidding requirements. [Click here to learn more](#)
